Gault & Millau

One of the most influential wine guide with French Origin. In Gault & Millau we have been one of the best producers in German growing regions for 17 years.

Berlin Wine Trophy

Within a few years, the Berlin Wine Trophy has advanced to become the principal international competition in Germany and one of the largest tastings worldwide. In 2014, the Beckstein winegrowers were distinguished here as the "best co-operative in Germany".

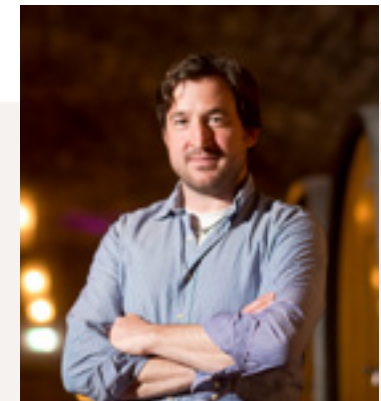

AWC Vienna

At the largest officially recognised wine grading in the world, the Beckstein winegrowers have been counted among the 2-star ranks of top wineries for a number of years.

Baden Winegrowers' Association

This distinction is the good calling card for upmarket wines and sparkling wines from Baden. It stands for the high level of excellence of the Beckstein winegrowers.

Gourmets are very Welcome!

Sun-drenched vineyards, green valleys and the idyllic course of the Tauber in between: a wonderful spot in nature that particularly invites walking and cycling.

In addition, there are picturesque towns and villages with countless sights to see, for example such as the Riemenschneider altar in Creglingen, the castle of the Teutonic Order in Bad Mergentheim, and Bronnbach Monastery. Many attractions are here for the whole family—from the new Solymar thermal bath to the wildlife park and the glass museum.

Not least, there are also friendly hosts, who will serve you regional delicacies such as green spelt patties (Grünkernküchle) or Tauber trout and provide comfortable bed rest at night.

This is the charming Tauber valley—a region for aficionados. In the heart of this, you will find our Beckstein Wine World. Here, we offer you a warm welcome and

invite you to taste our wines and sparkling wines, for example at our numerous events—in the open air, in the historic vaulted cellar and in the rustic Winegrowers' Parlour.

Visit our modern wine house and find out many interesting facts about our wine growing, experience our terroir at first hand and enjoy the pleasure of selected tipples. This is best as part of a short holiday or an aficionados' weekend, as the charming Tauber valley has plenty to offer you. See you soon then?

The Taste of Tauberfranken. The Taste of Gold.

With thousands of wines and sparkling wines submitted, the Berlin Wine Trophy, one of the largest international wine competitions, always sets new standards. Most recently, the samples also included 16 wines from the Beckstein winegrowers.

After four days of concentrated work, the result from the international jury was decided: the Beckstein winegrowers received two “Big Berlin Gold” awards, which are given only nine times in total, and seven “Berlin Gold” awards. However, that is not all: the rare special award of “best co-operative in Germany” was conferred on Baden’s third oldest winegrowers’ co-operative. This is a great honour and the result of the continuous pursuit of quality.

Reaching the Goal Together

Our success story began on 31st August 1894 with the founding of the co-operative by 18 Beckstein winegrowers. Since then, the number of our members has risen to 354 and our catchment area has expanded to around 21 surrounding wine towns and villages. However, our base remains in the peaceful wine village of Beckstein, in the middle of the delightful Tauber valley (see also pages 6/7). This is where our Beckstein Wine World can be found, which has been remodelled from scratch with the atmospheric St. Kilian’s Cellar, the Winegrowers’ Parlour and our new wine house.

In total, we manage 276 hectares of vines. Each of our winegrowers therefore has an average of only around one hectare of vineyard. This means that our vine dressers know their vines in detail and specialise 100 percent in their respective grape variety and its properties. As the vineyards have been passed almost exclusively from generation to generation to date, they build on a rich wealth of experience. Moreover, many old vines remain in our vineyards. These yield smaller berries but the grapes have all the more flavour. It is from these, for example, that we produce our premium selected wines.

Tauberfranken – The Cradle of Good Flavour

Alongside the passion of our winegrowers, the climate and location naturally play a key role in the quality of our wines. In Tauberfranken, we benefit from a Cool Climate. This means many hours of sunshine during the day and cool nights. Additionally, the autumn months are mostly mild and tend to be dry. Our grapes can therefore ripen on the vines over a long period but retain their pleasant freshness. This gives our wines distinctive and fresh fruity flavours and a complex bouquet. Our shell limestone soils store the warmth from the sun and pass it on to the vines in the cool evening hours. They are also rich in minerals, which give the wines their unmistakable character.

By virtue of our location in the north of the wine-growing region of Baden and as a former part of Franconia, our range includes typical Baden,

Franconian and Tauberfranken grape varieties. Because of our history, we can even offer you wines in the traditional Franconian Bocksbeutel. Furthermore, we grow pinot meunier, pinot noir and Chardonnay. As such, we have a variety structure similar to that of France’s Champagne region. Our principal individual locations are Beckstein’s Kirchberg, Gerlachsheim’s Herrenberg, Marbach’s Frankenberg and the Dittwar’s Ölkuchen. Among others, the grapes grow here for our premium brand, KILIAN. These include many wines that have been worth one thing to international juries: Gold.
